

Name _____

Project Name _____

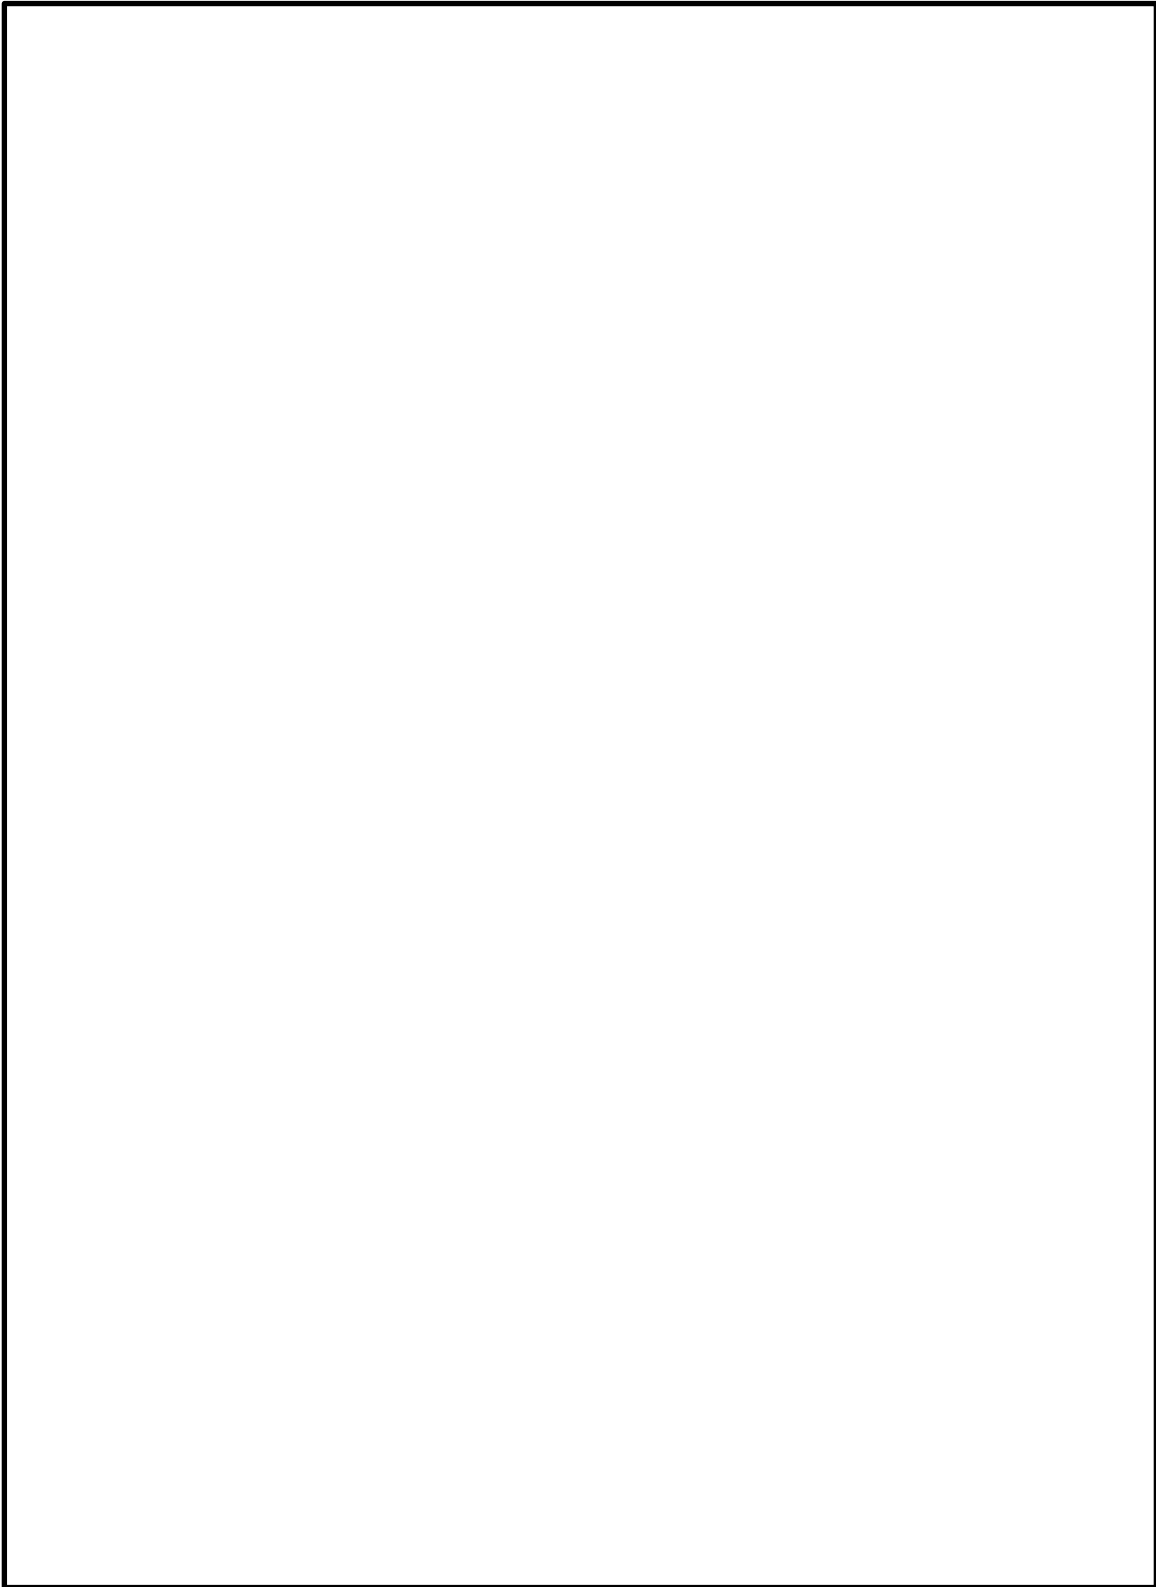

Project Subject _____

Write down as many questions as you can about your subject matter. When you have written down at least 10 questions, circle the ones that are most interesting to you.

Write down all the things you think about your subject. Separate them into the following columns.

Things I think are facts	My opinions

List all the words you can think of that apply to your topic. After writing them down use Tag Galaxy to identify some more terms. These will be your search terms.

A large, empty rectangular box with a black border, intended for the user to list words related to their topic. The box is currently blank.
